

LIST OF FIGURES AND IMAGES

VOLUME 1

- Adult BLS algorithm 3
 Chest compression rate and depth 4
 Shockable rhythm algorithm 7
 Adult ALS algorithm 10
 Paediatric ALS algorithm 11
 Normal end tidal CO₂ trace 20
 Easy CAP 21
 Bag mask ventilation circuit 22
 Tracheostomy tube 23
 OPA insertion 24
 Magill's forceps, OPA and NPA 24
 Neuromuscular conduction 31
 McCoy laryngoscope 34
 Macintosh laryngoscope 34
 Airtraq 34
 Endotracheal tubes 35
 Straight to cuff ETT shape 36
 Oropharyngeal and laryngeal axes 38
 Orotracheal intubation 38
 Laryngeal anatomy 39
 ETT misplacement 39
 Mallampati classification 41
 Difficult intubation 42
 Laryngeal mask airway 43
 LMA supreme 43
 Intubating laryngeal mask 44
 iGEL airway 44
 Cricothyroidotomy anatomy 48
 Cricothyroidotomy skin incision 49
 Needle cricothyroidotomy equipment 49
 Miller blade 51
 125 degree blade 54
 BiPAP 65
 Oxylog 2000 68
 Oxylog 3000 68
 Pacing artefact 73
 Shivering artefact 73
 Arrhythmia management 74
 Ventricular fibrillation 75
 Ventricular tachycardia 76
 SVT with RBBB 77
 VT management options 78
 Brugada syndrome 79
 Arrhythmogenic right ventricular cardiomyopathy 80
 Atrial fibrillation 82
 Atrial flutter 83
 Atrial flutter with LBBB 84
 Atrial fibrillation management options 85
 AF reversion options 86
 Amplatz LAA occlusion device 90
 AF acute anti-coagulation options 90
 SVT 92
 SVT management options 93
 Accessory pathway 94
 Lown-Ganong-Levine syndrome 94
 Afib and accessory pathway 95
 SVT with accessory pathway 96
 Sinus arrhythmia 97
 Sinus tachycardia 97
 Junctional bigeminy 98
 Junctional tachycardia 98
 Ventricular escape rhythm 99
 Atrial ectopic 99
 AIVR 99
 Ventricular ectopic 99
 Sinus pause 100
 1st degree heart block 100
 Mobitz Type I 101
 Mobitz Type II 101
 Third degree heart block 102
 Prolonged QTc 106
 CXR of ICD 109
 Ventricular paced rhythm 111
 Left ventricular paced rhythm 112
 Atrial and ventricular paced rhythm 113
 Bichamber pacing 115
 Displaced RVOT pacemaker lead 115
 Failure to sense 116
 Pacemaker lead fracture 116
 Failure to pace 117
 Runaway pacemaker 117
 Large bore IV catheter 122
 Upper limb veins 123
 IV insertion sites in infants 124
 Difficult IV access 125
 EZIO 127
 FAST 1 intraosseous device 127
 Bone injector gun 127
 Triple lumen CVC set 129
 Anatomy of the root of the neck 130
 R sided PICC line 133
 Intracatheter thrombosis of PICC line 133
 Diagnosis of shock 142
 Considerations in resuscitation 143
 IVC on subcostal longitudinal view 145
 M Mode measurement of IVC diameter 145
 US of IVC in hypervolaemia 146
 US of IVC in hypovolaemia 146
 EPSS measurement 163
 Pulmonary artery catheterisation 164
 CXR of pulmonary artery catheter 164
 Effects of adrenaline 166
 Intra-aortic balloon pump 168
 Sites of brain herniation 184
 CT head following severe hypoxic brain injury 185
 CT head of cortical laminar necrosis 186
 CT of decompressive craniectomy and severe cerebral oedema 187
 Paediatric self inflating bag 189
 Size 3 ETT 190
 Umbilical artery catheterisation 194
 Digital nerve block 204
 Innervation of the anterior leg 204
 Sensory supply of the sole of the foot 205
 Nerve supply of the dorsum of the foot 205
 Femoral nerve anatomy 206
 Nerve blocks of the face 206
 Adverse events and errors 210
 'Swiss cheese' model of adverse events 212
 The communication sequence 217
 Communication sequence repetition in the ED 218
 Leadership styles 235
 Delegation styles 236
 Conflict management techniques 244
 Attention maintaining techniques 251
 Power distance values for various nations 258
 Individualism values for various nations 258
 Uncertainty avoidance values for various nations 259

- Quantity of life values for various nations 260
Life expectancy 264
BMI chart 268
Coin rubbing 270
Management of refusal of treatment 274
ECG lead placement 293
ECG intervals and waves 294
Normal 12 lead ECG 295
Cardiac axis 297
Right bundle branch block 298
Left bundle branch block 298
Left anterior hemiblock 299
Left posterior hemiblock 299
P mitrale 300
P pulmonale 301
RVH with RAD and RBBB 301
LVH with strain pattern 302
ECG changes of hyperkalaemia 302
ECG changes of hypokalaemia 303
PSAX ventricular view 305
PSAX aortic view 305
Subcostal 4 chamber view 306
Colour Doppler of the internal carotid artery 315
US of muscle tear 316
ROC plot 324
Anion gap acidosis 333
Non anion gap acidosis 334
Assessment of hyponatraemia 342
Assessment of hypokalaemia 347
ECG changes of hypokalaemia 348
ECG changes of hyperkalaemia 349
Parathyroid glands 352
Diagnosis of elevated bilirubin 361
Red cell development 366
White cell development 367
Dose effect curve 374
Log dose effect curve 374
Zero order kinetics 377
First order kinetics 377
Drug concentration after repeated IV doses 379
Drug concentration following a single oral dose 379
Effects of variance 409
Common data distributions 410
Positive skew 411
Negative skew 411
Normal distribution 411
Possible conclusions from study data 417
Choice of statistical tests - parametric data 418
Choice of statistical tests - non parametric data 419
ATS presentations per hour 429
Estimated NHS productivity 2001-2005 445
Diminishing return on health expenditure 454
Personal balance and stress 457
Chest pain and shortness of breath - the 'Big three' 468
Investigation of PE (CTPA) 470
ECG in large PE 472
Pulmonary infarcts 475
Westermark's sign 475
Hampton's hump 475
Low risk PE investigation 476
Saddle embolism 477
CTPA of pulmonary embolism 477
RV dilation on CTPA 478
CT and CXR of fat embolism 484
CTA of aortic arch thrombosis 485
Types of aortic dissection 486
CTA of type I aortic dissection 486
CXR in aortic dissection 487
CTA in aortic dissection 487
CTA of Type I aortic dissection 488
CXR of aortic stent 488
ECG in pericarditis 490
ECG of phase II pericarditis 491
CXR of oesophageal rupture 493
CT of oesophageal rupture 493
Gastric volvulus 494
Hyperacute T waves in ACS 497
T wave inversion in ACS 497
Inferior STEMI 499
Left main occlusion 499
Anterior STEMI 500
Lateral STEMI 500
LBBB and Inferior STEMI 501
Left ventricular aneurysm 502
Inferolateral ST depression of ischaemia 503
Early repolarisation phenomenon 504
CTCA of LAD 510
Coronary artery anatomy 512
Acute coronary syndromes 513
ACS evaluation pathway 519
Reperfusion choices for STEMI 526
JVP measurement 536
Normal JVP trace 536
Auscultatory sites 538
Auscultatory diagram of aortic stenosis 540
CXR of TAVI 541
Auscultatory diagram of mild aortic regurgitation 542
Auscultatory diagram of severe aortic regurgitation 542
Auscultatory diagram of mitral stenosis 543
Auscultatory diagram of mitral regurgitation 544
Valvular anatomy 545
Ball and cage mitral valve 547
Tilting disc valve 547
Bileaflet St Jude valve 548
Prosthetic valve on CXR 549
Janeway lesions 552
Roth's spots 552
Splinter haemorrhages 553
Ventricular septal defect 556
Patent ductus arteriosus 557
Coarctation of the aorta 558
CXR of coarctation of the aorta 559
CT of coarctation of the aorta 559
ECG in dextrocardia 560
Kartagener's syndrome CXR 560
Tetralogy of Fallot 561
CTA of pulmonary hypertension 564
Atrial myxoma 565
Determinants of cardiac output 568
ECG of HOCM 571
CXR in diastolic heart failure 573
CXR in APO 573
CXR of vascular pedicle width 574
CXR of dilated azygous vein 574
CXR of systolic heart failure 574
CXR of unilateral pulmonary oedema 574
Pulsus paradoxicus 578
ECG of electrical alternans 579
Echocardiogram of pericardial effusion 579
Pericardial drainage set 580
CXR of pericardial effusion 580
Sub xiphoid pericardial approach 580
ECG of acute myocarditis 582
Erythema marginatum 583
Mycotic aortic aneurysm 590
Tissue oedema 594

VOLUME 2

- Anterior lung and pleural anatomy 597
Outline of the mediastinum as seen on CXR 599
CXR of azygous fissure 599
Eventration of the diaphragm 599
Normal inspiratory CXR 600
CT chest - upper zone 600
CT chest - mid zone 600
CT chest - lower zone 601
CT chest - sagittal reconstruction 601
RUL bullus and emphysematous change 601
Lymphangitis carcinomatosa 603
Bilateral pulmonary haemorrhage 603
R total pneumonectomy 604
RUL consolidation 604
RML consolidation 604
RLL consolidation and APO 605
LLL consolidation 605
CXR of miliary TB 606
Pleural effusion 607
RUL mass 608
Lung abscesses on CXR 608
Varicella pneumonia on CXR 609
Lower zone fibrosis 610
Sarcoidosis 610
Methotrexate lung 610
Divisions of the mediastinum 611
Foramen of Bochdalek hernia 612
Bronchiolar changes in asthma 614
CXR of right bronchus foreign body 634
CXR of left hilar mass 638
CT of left lower lobe carcinoma 638
CXR of lung metastases 639
CXR of LLL pneumonia and APO 641
CXR of aspiration pneumonia 650
CXR of tethered, secondary pneumothorax 653
CXR of pneumomediastinum 655
CT of pneumomediastinum 655
CXR of pneumopericardium 655
CXR of pneumothorax 657
Supine CXR with deep sulcus sign 657
CXR of skin fold line 657
US of seashore sign in normal lung 658
Average interpleural distance measurement 658
Supine CXR of tension pneumothorax 660
Intercostal anatomy 661
Chest drain insertion site 662
Chest drain skin incision 662
Chest drain insertion 663
Underwater sealed drain system 665
US of proposed pleural tap site 667
US of a loculated effusion 667
US of pleural effusion 667
CXR of empyema 668
CT of empyema 669
CT demonstrating ascitic fluid in the pelvis 674
CT of polysplenia 674
AXR demonstrating splenomegaly 675
CT of splenic infarction 676
Haemorrhoids and perianal haematomas 679
AXR demonstrating rectal FB 681
Pegogram 682
AXR of gastric lap band 683
Small bowel location and appearance 685
Supine AXR of free gas 686
AXR of bowel wall thickening and perforation 686
CT of ileal intussusception 688
CT of mesenteric lymphadenopathy 688
AXR of constipation 689
Rectus sheath haematoma 690
CT of appendiceal faecolith 693
CT of appendicitis 694
AXR and CT of small bowel obstruction 697
US of SBO 697
AXR of large bowel obstruction 698
AXR of ileus 698
AXR of rectal tube 700
AXR of sigmoid volvulus 700
NGT in bronchi 702
US of AAA 709
CT of AAA 709
AXR of AAA 709
US of double lumen AAA 709
CT of acute aortic occlusion 711
Branches of the aorta 712
Mesenteric venous anatomy 713
Normal mesenteric CTA 713
CTA of SMA occlusion 713
US of SMA 714
CT of free intra-abdominal gas 715
Erect CXR of duodenal perforation 715
AXR of gastric outlet obstruction 716
CXR of pseudo-free gas 716
Anatomy of the pancreas 719
CT of gallstone pancreatitis 720
Anatomy of the gall bladder 722
US of gall stones 722
AXR of biliary stent 723
CT of CBD stone 723
US of acute cholecystitis 724
CT of acute cholecystitis 724
US of gallstone 724
CT of biliary gas 725
CT of gallbladder empyema 725
CT of diverticular perforation 726
AXR of ulcerative colitis 727
CTA of rectal haemorrhage 733
CT of liver abscess 735
US of ascites 737
CT of hepatic cyst 747
CT of hepatic metastases 747
Anatomy of the stomach 748
Types of colonic carcinoma 750
Anatomy of the large bowel 750
CXR of achalasia 753
Lateral CXR of achalasia 754
Functional areas of the cerebral cortex 760
Sagittal anatomy of the brain 761
Anatomy of the base of the skull 764
Left central scotoma 765
Visual pathways 765
Monocular blindness 766
Right nasal hemianopia 766
Bi-temporal hemianopia 766
Right homonymous inferior quadrantanopia 766
Right homonymous hemianopia 766
Macular sparing 766
Muscles responsible for ocular movement 769
Extraocular muscle movements - right eye 769
MRI of VIth cranial nerve 770
Branches of the facial nerve 773
Reflex levels 782
Coronal section of the brain 783
Afferent sensory pathways 784
CTA of brain death 786
CT of the cranial fossae 787
CT of the basilar cisterns 788

- CT of quadrigeminal cistern 788
CT of falcine calcification 788
Main branches of the brachial plexus 790
Sensory supply of the upper limb 791
Sensory supply of the lower limb 793
Cerebral vascular supply and related anatomy 795
Cerebral artery segments 796
CT of pontine haemorrhage 800
Thalamic ICH 801
Cerebellar haemorrhage 801
Angiogram of R ICA stenosis 803
CT of insular ribbon sign 803
Dense MCA sign 804
Frontoparietal stroke 804
Old MCA stroke 805
CT perfusion scan 805
CT perfusion scan of large penumbra 806
MRI of ICH 806
CT of ICH 806
Carotid Doppler of low grade stenosis 807
Moderate degree ICA stenosis 807
CT of SAH post TPA 814
Sites of cerebral aneurysms 821
CT of SAH 823
Anterior cerebral artery aneurysm 824
SAH and ICH 824
PCOM aneurysm 825
Subarachnoid haemorrhage management 826
LP anatomy 832
US of lumbar spinous processes 833
LP needle types 833
CSF circulation 841
CSF resorption 842
CT of hydrocephalus 843
Cerebral venous sinuses 843
MRI of sagittal sinus thrombosis 844
CT of glioblastoma 845
CT of meningioma 846
CT of cerebral metastases 847
Blocked shunt 848
Lateral shunt X-ray 849
AXR of VP shunt 849
Spinal and nerve root anatomy 869
MRI of thoracic epidural abscess 870
Spina bifida Xray 870
Neural tube defects 871
MRI of MS 873
Sensory loss distribution in peripheral neuropathy 885
CT of neurofibroma 886
Diabetic retinopathy 895
CT of adrenal metastasis 904
L thyroid cyst with tracheal compression 911
TB of the bowel 951
CT of miliary TB 952
Cellulitis of the foot 958
Rash of herpes simplex 962
Rash of herpes zoster 963
Structure of HIV 970
Kaposi's sarcoma 973
Splenic hydatid cyst 988
Fever without source in children < 3 years of age 1018
Mental health flow chart 1061
Dopamine metabolism 1071
Normal external anatomy of the female genitalia 1085
Anatomy of the uterus 1086
Positions of the uterus 1087
CT of calcified uterine fibroid 1092
Sites of ectopic pregnancy 1100
Investigation of possible ectopic pregnancy 1102
The menstrual cycle 1105
Sites of endometrial deposits 1106
Normal fundal height 1108
US of fetal heart rate 1109
Placenta praevia 1115
Normal position during delivery 1121
Episiotomy incision site 1122
Prolapsed cord 1124
Anatomy of the ureter 1135
CT of renal infarct 1138
KUB of ureteric calculus 1143
CT of high grade ureteric obstruction 1143
CT of VUJ calculus 1143
CT of right ureteric calculus 1144
Prostatic and penile anatomy 1147
Urethral catheterisation in females 1150
Urethral catheter insertion in males 1151
Bell clapper deformity 1153
Anatomy of the testis 1154
Cross sectional anatomy of the penis 1157
Anatomy of the male reproductive system 1159
CT of prostatic bony metastases 1161
CT of polycystic kidney disease 1165
CT of renal cyst 1166
CT of renal cell carcinoma 1166
CTA of renal angiomyolipoma 1167
US of hydronephrosis 1170
CT of transplanted kidney 1177

VOLUME 3

- Anaemia 1180
Microcytic anaemia 1182
Macrocytic anaemia 1185
Platelet development 1192
Clotting system 1194
Ecchymoses 1195
Anatomy of the lower limb veins 1210
US appearance of right leg vessels 1212
DVT assessment and management 1214
US of popliteal vein DVT 1215
Deep veins of the lower limb 1216
Axillary vein thrombosis 1217
Venogram of IVC filter 1226
Lymphocyte development 1228
CT of myeloma bony metastases 1231
Anatomy of the lymphatic system 1235
CTA of lymphoma 1236
CXR of lymphoma 1236
Antibiotic choices in febrile neutropenia 1238
CXR of SVC thrombosis 1239
CTV of SVC thrombosis 1240
Polyarthropathy in SLE 1262
Scleroderma hand 1271
CXR of Marfan's syndrome 1274
Redback spider 1285
Funnel Web spider 1287
Hadronyche spider 1287
White tailed spider 1289
Necrotising arachnidism 1290
Snake bite marks 1295
VDK 1296
Snake bite management 1299
Python bite 1300
ECG of hypothermia 1322
Skin features of lightning injury 1341
Vasculitis 1343

- Anatomy of the skin 1344
 Target lesions 1347
 Pemphigus 1349
 Erythema nodosum 1351
 Keratoacanthoma 1362
 Middle and internal ear anatomy 1365
 Left tympanic membrane anatomy 1368
 Anatomy of the sinuses 1372
 External laryngeal anatomy 1375
 Regions of the pharynx 1375
 Epiglottitis 1378
 Internal naso-pharyngeal anatomy 1381
 Neck XRay of fish bone in oesophagus 1384
 Neck XRay of oesophageal perforation 1384
 Location of the salivary glands 1388
 Tooth anatomy 1389
 Tooth surfaces 1389
 Dental anatomy 1389
 OPG of dental abscess 1391
 Submandibular swelling 1392
 CT of submandibular abscess 1392
 Anatomy of the external eye 1397
 The slit lamp 1398
 Ocular anatomy 1399
 Fundoscopic anatomy 1399
 Mire position for measuring IOP 1400
 iCare tonometer 1401
 Hyphema 1405
 Central retinal artery occlusion 1411
 Retinal vein occlusion 1411
 Proposed Australian standard mass casualty triage 1422
 CT of frontal contusion 1450
 CT of base of skull fracture 1451
 CT of traumatic SAH 1451
 Bones of the base of the skull 1452
 Acute subdural haematoma 1454
 Acute extradural haematoma 1454
 Chronic subdural haematoma 1455
 Acute on chronic subdural 1455
 CT of tentorial SDH 1455
 CT of acute SDH 1455
 Assessment and management of head injury in adults 1457
 Sites for emergency craniotomy 1463
 MRI of traumatic pontine haemorrhage 1464
 Facial bone anatomy 1468
 CT of ethmoid fractures 1468
 Anatomy of the nasal cartilages 1469
 Mandibular fracture 1470
 TMJ dislocation 1470
 Tripod fracture 1471
 Blow out fracture X-ray 1472
 CT of blowout fracture 1472
 Le Fort fractures 1472
 CT of Le Fort fractures 1473
 Dental injuries 1474
 Ellis II & III injury 1475
 Anatomy of the pinna 1475
 CTA of carotid dissection 1477
 Bones of the upper cervical spine 1481
 C5-6 instability 1482
 Lateral cervical spine X-ray interpretation 1483
 Cx spine Xray of increased predental space 1483
 Rotated peg view 1483
 Assessment of suspected cervical spine injury 1485
 Flexion injury pattern of the cervical spine 1486
 Bilateral C5-6 facet joint dislocation 1486
 Anterior wedge fracture 1486
 Cx spine Xray of congenital abnormality 1487
 Displaced type II dens fracture 1487
 Atlanto axial dislocation 1487
 Extension injury pattern of the cervical spine 1488
 Hangman's fracture 1488
 Peg view of Jefferson fracture 1489
 Jefferson fracture 1489
 Lumbar vertebral anatomy 1490
 L1 crush fracture 1490
 L1 burst fracture 1491
 T4 burst fracture 1491
 Spinal tract anatomy 1492
 Dermatomes of the perineum 1493
 Dermatomes of the body 1494
 MRI of cord lesion 1495
 US of sternal fracture 1497
 XRay of sternal fracture 1498
 Left haemothorax 1499
 CXR of haemothorax 1499
 Bilateral pneumothoraces 1499
 Ruptured right mainstem bronchus 1500
 CXR of pulmonary contusion 1501
 CXR of aortic rupture 1502
 Angiogram 1503
 CTA of aortic injury 1503
 CXR of traumatic diaphragmatic hernia 1505
 FAST scan of Morrison's pouch 1508
 Subcapsular splenic haematoma 1510
 Grade II splenic injury 1511
 Grade III splenic injury 1511
 Grade V splenic injury 1511
 Splenic artery coiling 1512
 Liver contusion 1512
 Grade III liver laceration 1512
 CT of mesenteric haematoma 1513
 Grade II renal injury 1516
 Grade IV renal injury 1516
 Extraperitoneal bladder rupture 1517
 Urethrogram 1518
 Anatomy of the pelvis 1520
 Xray of a normal adolescent pelvis 1520
 Acetabular fracture 1521
 Closed degloving injury 1522
 CT of sacral fracture 1523
 Pubic diastasis 1524
 Pelvic angiogram 1524
 Knife as foreign body 1527
 Muscles of the head and neck 1528
 Zones of the neck 1528
 CT of thyroid cartilage laceration 1529
 Superficial arteries of the head and neck 1529
 Lateral thoracotomy incision site 1532
 Thoracotomy view 1533
 CT of penetrating liver laceration 1534
 Cross sectional anatomy of the right thigh 1536
 Right cubital fossa anatomy 1537
 Muscles of the forearm 1537
 Cross sectional anatomy around the left wrist 1538
 Cross section of the forearm 1539
 CXR of shotgun pellets 1541
 Missile injuries 1541
 Gunshot wound skin marker 1542
 CT of gunshot wound to neck 1542
 Zones of the hand 1545
 Innervation of the hand 1545
 Surface anatomy of the palm 1546
 Anatomy of the finger tendons 1547
 Mallet finger 1547
 Anatomy of the finger phalanges 1549
 Compartments of the lower leg 1554
 Burn size estimation in infants 1558
 Burn area assessment chart - adult 1558
 Burn size estimation in children 1559

- Burn depth appearance 1562
Burn depth assessment 1563
Interrupted suture insertion technique 1569
Skin flap repair 1570
US of wooden foreign body 1574
Parts of a bone 1576
Osteochondroma of the femur 1583
XRay of osteosarcoma 1584
MRI of osteosarcoma 1585
Assessment of joint pain 1589
Pseudogout in the knee 1590
Bursae around the knee 1592
Lumbar disc disease 1594
MRI of lumbar discitis 1595
Features of osteoarthritis 1597
Salter Harris classification of fractures 1608
Names of common wrist fractures 1615
Dislocated left hip prosthesis 1617
Right posterior hip dislocation 1617
Anterior hip prosthesis dislocation 1617
Garden classification 1619
Subcapital NOF fracture 1619
Evans classification of inter-trochanteric fractures 1619
Intertrochanteric NOF fracture 1620
Anatomy of the femur 1621
Intercondylar femoral fracture 1622
Anatomy of the knee joint 1623
Knee dislocation 1624
Posterior patella dislocation 1625
Patellar dislocation 1625
Lipohaemarthrosis 1626
Lateral tibial plateau fracture 1626
Patella fracture 1627
Fracture of the tibia and fibula 1628
Meniscal anatomy 1629
Ankle joint anatomy 1631
Ligaments of the ankle and foot 1631
Bones of the foot - medial aspect 1633
Os trigonum 1633
Bones of the foot - plantar aspect 1633
Ankle fracture 1634
Weber B ankle injury 1634
Tibial plafond injury 1634
Ankle dislocation 1635
Talar dome fracture 1636
Talar head and neck fracture 1636
Calcaneal body fracture 1636
Navicular fracture 1637
Subtalar joint dislocation 1638
Xray of subtalar joint dislocation 1638
Fifth metatarsal base fracture 1639
Lisfranc's fracture dislocation 1639
Achilles tendon rupture 1641
US of Achilles tendon 1641
Shoulder anatomy 1642
Anterior shoulder dislocation 1643
Hill-Sachs deformity and bankart lesion 1644
Posterior dislocation - Valpeau view 1644
Posterior dislocation - lightbulb sign 1645
Posterior shoulder dislocation - gap sign 1645
Luxatio erecta 1646
Type I distal clavicular fracture 1649
A-C joint dislocation 1650
Posterior sternoclavicular joint dislocation 1650
Fractured neck of humerus 1651
Greater tuberosity fracture 1651
Anatomy of the humerus 1652
Muscles of the rotator cuff 1653
Bones of the elbow - lateral view 1655
Bones of the elbow - medial aspect 1656
Elbow dislocation 1656
Supra and intracondylar fracture of the humerus 1657
Medial epicondyle fracture 1657
Lateral humeral condyle fracture 1657
Radial head fracture 1658
Olecranon fracture 1658
Monteggia fracture anterior dislocation 1659
Monteggia fracture posterior dislocation 1659
Galeazzi fracture dislocation 1660
Bones of the wrist - dorsal aspect 1660
Normal carpal alignment 1661
Carpal dislocation at the wrist 1661
Lunate dislocation 1662
Translunate dislocation of the carpus 1662
Transscaphoid perilunate dislocation 1662
Colle's fracture 1663
Torus fracture 1664
Salter Harris I distal radial injury 1664
Smith's fracture 1664
Scaphoid fracture 1665
Scaphoid tubercle fracture 1666
Bennett's fracture 1667
Radial collateral ligament injury 1668
Fractured 5th metacarpal neck 1668
The parasympathetic nervous system 1673
The sympathetic nervous system 1674
ECG of Na⁺ channel blocking toxicity 1675
Management of poisoning 1683
AXR of drug pack 1688
Paracetamol toxicity nomogram 1708
Paracetamol management 1710
